Allowable Subject Matter

1. Claims 1-9 are allowed.

Claim 1 is independent claim.

The following is an examiner's statement of reasons for allowance:

As to **claim 1**, the present invention from the application discloses a system comprises “control means changes a feed start timing from a time when a trailing end of the preceding recording medium is passed through a predetermined position to the start of the feeding of the succeeding recording medium by the feed roller in accordance with a leading end margin amount of the succeeding recording medium”.

The closest prior art such as Yokoi et al. (US Patent No. 5,223,858) and Matsumoto et al. (US Patent No. 6,089,564), which are cited on the previous office action, discloses control means adapted to start the feeding of a succeeding recording medium by the feed roller before the discharge of a preceding recording medium by the discharge roller. However, either or the combination of the above prior art, including an updated electronic text search, fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
